

Application Note: AN10048

How to wait for a condition on an input port

This application note is a short how-to on programming/using the xTIMEcomposer tools. It shows how to wait for a condition on an input port.

Required tools and libraries

This application note is based on the following components:

- xTIMEcomposer Tools - Version 14.0.0

Required hardware

Programming how-tos are generally not specific to any particular hardware and can usually run on all XMOS devices. See the contents of the note for full details.
