Import or export a project in xTIMEcomposer

IN THIS DOCUMENT

- ▶ Import a project
- Export a project

xTIMEcomposer makes it easy to share projects with other developers.

1 Import a project

To import a project, follow these steps:

- Choose File ► Import.
- Double-click on the General option, select Existing Projects into Workspace and click Next.
- 3. In the **Import** dialog box, click **Browse** (next to the **Select archive file** text box).
- 4. Select the archive to import and click **Open**.
- 5. Click Finish.

2 Export a project

To export a project, follow these steps:

- 1. Choose File ► Export.
- 2. Double-click on the General option, select Archive File and click Next.
- 3. Select the projects you wish to export in the top-left panel. You can exclude files by deselecting them in the top-right panel.
- 4. Enter a name for the archive in the **To archive file** text box.
- 5. Click Finish.
